

Building a Strong Foundation

Equip your elementary students to become master communicators with Writing & Grammar 2. This course helps students to develop strong grammar and writing skills while encouraging them to communicate effectively for the glory of God. It provides a solid foundation in grammar, covering parts of speech, sentence structure, and mechanics, and incorporates chapters on study and research skills. Grammar and writing chapters alternate, giving students the chance to immediately apply what they've learned.

How We Teach It

Chapter Openers

Each chapter begins with a helpful overview in the Teacher Edition that introduces the biblical worldview focus for the lesson, along with clear objectives, resources, and assessments for each lesson. Biblical worldview shaping statements offer guidance to help teachers to lead the class in understanding how the lesson aligns with biblical principles. Additionally, mentor texts are provided at the start of each grammar and research skills chapter to support learning and set the stage for the lessons.

Modeling

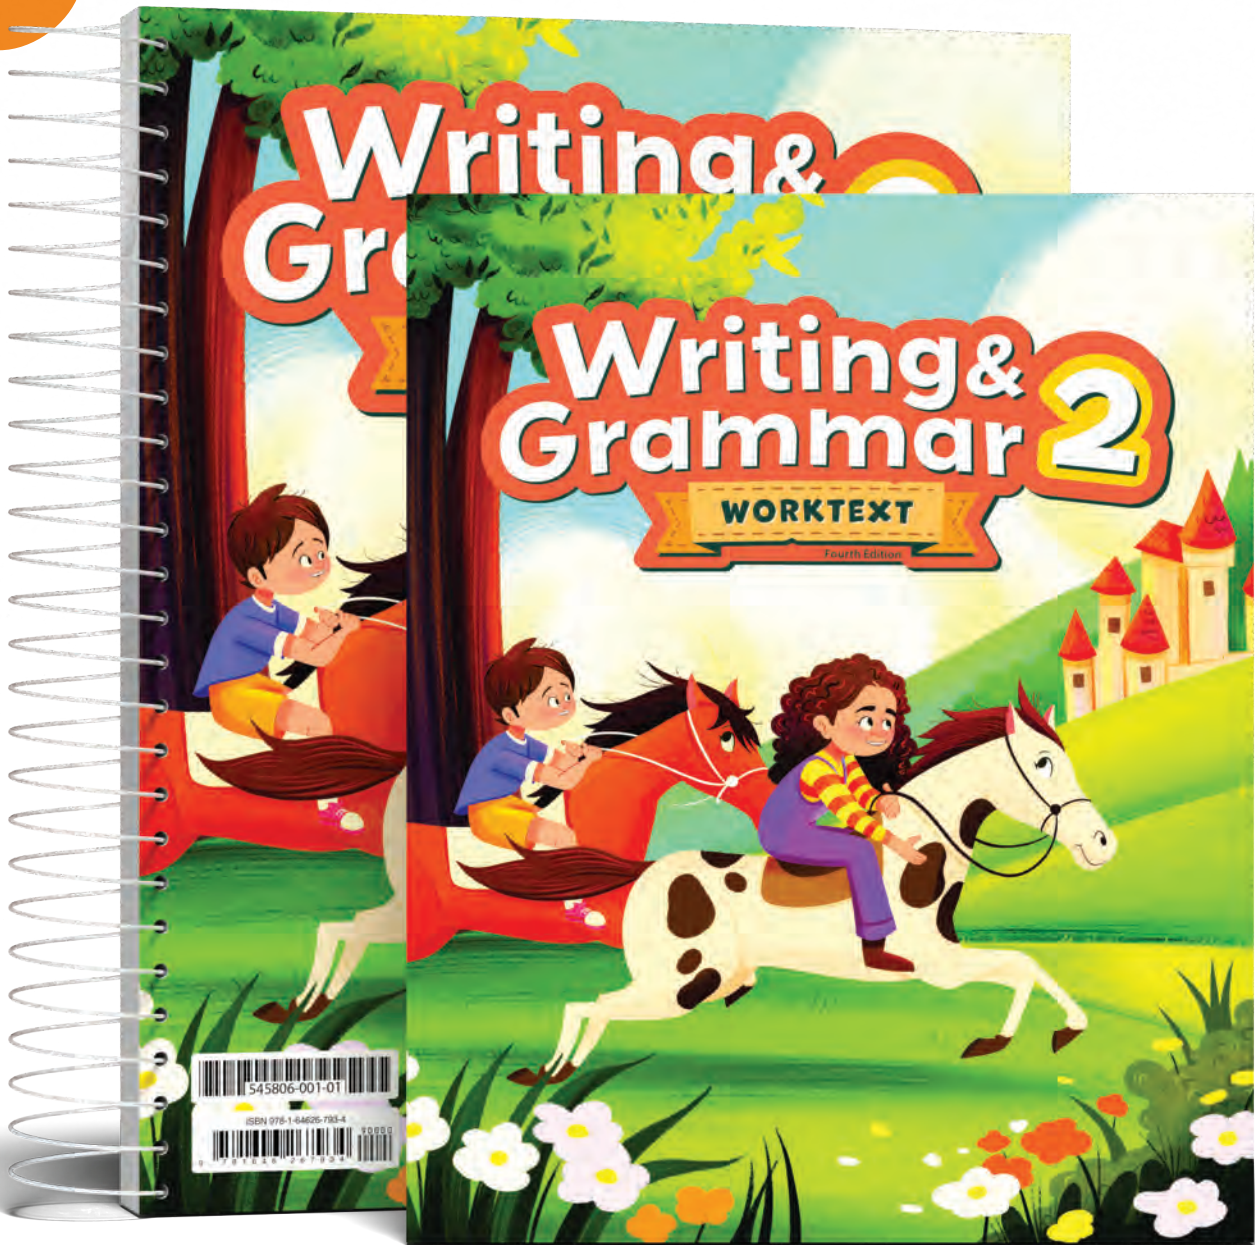

Grammar chapters provide opportunities for teachers to model daily objectives, and writing chapters include opportunities to model different forms of writing, such as poetry, narratives, opinion pieces, and informational texts. Each modeling exercise includes step-by-step instructions for guiding students through the model to prepare them for independent writing.

Writing Process

Each writing chapter follows the five steps of the writing process—Plan, Draft, Revise, Proofread, and Publish. As students work through these steps, they will also explore age-appropriate writing traits while crafting various forms of writing, including poetry, narratives, opinion pieces, and informational texts.

Practice

Additional practice pages in the grammar chapters and “Write It Right!” pages of the writing chapters offer numerous opportunities for practice to improve retention. The Student Worktext also includes guided practice, independent practice, reviews, journal activities, and reflection pages, allowing students to apply grammar and writing skills to sentences, paragraphs, and writing projects.

eTexts of student and teacher materials, along with resources referenced in the Teacher Edition, are available in BJU Press Trove.

Materials

Student Worktext

The *Writing & Grammar 2* Student Worktext is a colorful, inviting, and grade-appropriate resource for second graders. It strengthens students’ grammar foundation with a focus on parts of speech, sentence structure, punctuation, and writing skills—while also teaching them how to write in a way that brings glory to God. Through chapters on grammar, writing, and communication, students will learn to be effective communicators and researchers, all while honoring God in their work.

Teacher Edition

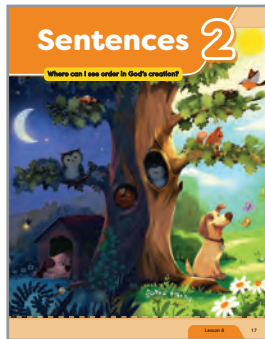

The *Writing and Grammar 2* Teacher Edition offers step-by-step instructions for teaching grammar and writing and includes the teaching cycle model to ensure you’re able to teach your students effectively. Biblical Worldview Shaping (BWS) is integrated throughout, with overviews at the start of each chapter and tagged BWS objectives, to help teachers to emphasize that the ultimate purpose of good communication is to honor God.

Assessments

There are 9 assessments included, 7 writing rubrics, 6 “Write It Right!” pages for each writing chapter, and reviews for grammar and research skills chapters.

Assessment Answer key is also available.
